

Online attendance management system

Online Attendance Management System

Attendance Management System is an innovative tool to maintain and manage the attendance of students/employees. These tools can be a software to monitor attendance details.

Prefixing a word "online" to this tool makes this tool very resourceful technique. This is because now this tool can be accessed from anywhere around the globe.

So an online Attendance Management System is an innovative way to monitor and track the attendance of students/employee.

Also this provides a transparency in the system so that each student can view their attendance from anywhere , anytime.

Features of the project

As soon as a teacher or a student joins the institution, he/she is requested to sign up to the online attendance management system. After this, admin is required to review and approve their account activation.

As their account gets approved, they can access to their account.

Users / Actors Of System

1. Admin
2. Teacher
3. Student

Admin

- He/she is a super user who enjoys all the privileges .
- Add Update Delete Subject to be studied.
- Approve/Disapprove teacher/student account.
- Add teacher/student account .
- Phptpoint (<http://www.phptpoint.com/>)
- View attendance of each student.

- ~~View attendance average Percentage~~
- Download attendance Report as PDF format
- Can send instruction/notification to every teacher.
- Update Records

Teacher

- He/she is required to create account and then gets approved by the admin.
- View the list of students assigned to them.
- Mark attendance after each lecture
- View attendance of each student assigned to them.
- Generate/Download Report of attendance in PDF Format
- Check Average Attendance
- Update Profile
- Upload Profile Pic
- Update Password(encrypted format)

Student

- He/she needs to create an account.
- Can view their attendance from anywhere around the globe.
- Generate/Download Report of attendance in PDF Format
- Check Average Attendance
- Update Profile
- Upload Profile Pic
- Update Password(encrypted format)

Hello,

I would like to add this to my project. I have some doubts regarding this. Mine is a school project. I already have build the site(offline) and would like to add attendance marking in it. But with some modifications:

Teachers should mark attendance :

- 1) by default student should be present ie only absent to be marked.
- 2) I need some forms for teachers to enter time table, some diary notes, enter marks, etc.

Can you guys do that?

Hello, i liked the script but need some modifications in it.
Modifications be like-

- 1) Students should be able to register himself with multiple courses
- 2) Teachers attendance facility should be there
